Additional Notes

Read all pattern notes, instructions, and other provided details carefully before starting the project to make sure you understand everything. It could save you hours & a lot of headaches!

- The gauge/tension is not critical for this pattern, however, if you want to be sure you meet the gauge for this pattern then make a swatch of each square that measures at least 10 x 10 cm / 4 x 4 inches using the stitch provided under the Gauge Section. If your swatch matches the gauge, then you are all set to start the project. If the gauge is wrong, you might need to change your crochet hook - increase your hook size if your stitches are smaller & decrease your hook size if your stitches are larger.
- All measurements given are unblocked and measured pre-wear and as fabric pieces may stretch during/after blocking, and wearing.
- Provided measurements are as exact as possible, but are given as approximates. This is because yarn variances, crochet tension & individual technique might give variations in the result, which changes from person to person.
- The main body of this pattern is worked in continuous rounds. There will be NO joining at the end of each round, or turning and chaining.
- The ribbon section of this pattern is worked flat in rows.
- Stitch counts are given in [] at the end of each row. If no stitch count is given, then the count is the same as the previous row.
- Care Instructions: Hand wash & lay flat to dry or follow instructions on the yarn label.
